How do I post a new question in the forum?

Follow the subsequent steps in order to create a new topic in the forum.

- Go to the page of the discussion group that most fits the topic of your question, e.g., General Questions.
- Click on the "Add New Question" link on this page.
- If not already authenticated by the system, you will be asked to log in with a user name and password; note that–after a couple of minutes for synchronization–your credentials from an account created in the JIRA Tracker are also available in the Confluence Wiki.
- You will be provided with an edit dialog for the new posting.

If you encounter any problems with posting in the forum, please contact the site administrators
